

Physics Final Exam Review and Course Remediation

Due on May 21, 2015

This document describes the final exam review and course remediation activities. These activities will help you prepare for the final exam and to demonstrate to me your efforts to better understand material that you may have had difficulty with during the semester. Two parts are required: (1) USA Test Prep and (2) Notes on the Physics Classroom Tutorials. The entire assignment is worth a 100 points and will be entered into the grade book as a test grade. Your formative grades within the appropriate standards may also be adjusted according to how well you take notes and how many extra points you attempt. The closer your grade is to your desired grade; the more of these tasks you should complete. For example, if you really want a B and your current grade is anywhere between 77 and 84, then you should do a very good job on this assignment. To help you do well on the final exam, you should even repeat some of the activities several times over the next couple weeks to improve your memory the material. There is no limit to how much you can do, just how much effort you are willing to put forth.

Part 1 | USA Test Prep Activities

Complete at least 13 of the assigned activities. You must score 80% or better to receive credit for a particular activity. You make attempt each activity as many times as you would like. The highest score will count. None of the videos count as an activity. You should have a log in to USA Test Prep from the activities we did on the first few days of school. When you log in you should see a list of assignments at the bottom part of the page. If you do not have a Physics Final Review activity listed, you need to join Casey Jones's Physics (3rd or 4th block class as appropriate). (If you see two Casey Jones' listed in the list of teachers, choose the first one.) Your classes and the "Join Link" are located on the left side below your name and image. Click on the green play button to open the list of available activities. Unfortunately the activities list does not always indicate the topic it relates to, so click on the activity first and see which topic it is. If you do not want to work on that topic just go back to the assignment list. Click "Begin" to start. Your results will be automatically recorded and sent to me.

USA Test Prep Log in <http://usatestprep.com>

Login if you already have a Hillgrove account or watch the appropriate movie on the homepage to set-up a new account with the following information:

School ID: hillgrovega

Student Activation Code: contact teacher

Use the following table to keep track of your progress. Turn this sheet in at the end of the semester. Record your number of attempts and number of minutes spent on each activity.

Part 1: USA Test Prep Activities	2 points per activity
